FISH AND GAME LAW.

Extracts from The Wisconsin Game Law as Now Constituted.

The legislature has made no significant alterations in our present fish and game laws. Following is a synopsis of the law as now amended:

The fish and game warden appointed by the governor is to appoint two deputies in each county and as many special deputies.

The deputies are paid a per diem for the days they are under direct order, and their necessary expenses.

Licenses for hunting game are continued. Non residents to obtain them of the secretary of the state, residents from county clerks, as at present.

For hunting without license the fine is from \$50 to \$100.

The hunting season for deer is the last twenty days of November. In Sheboygan, Calumet, Manitowish and Fond du Lac counties deer hunting is forbidden entirely.

Rabbits and squirrels are placed under protection from May 1 to July 1. Muskrats will not be protected at all. Guns, traps, boats and other implements used in violating the law and all game wrongfully taken may be seized and confiscated and sold by any warden.

The provisions as to shipping game are made more stringent. There may be one shipment a day in the open season if not to exceed twenty-five birds, this applying only to woodcock, partridge, pheasant, prairie chicken, grouse and plover; aquatic fowl and snipe may be shipped to the number of fifty provided they are accompanied by owner. Deer or parts of carcasses and hides, heads of the same can not be shipped at all from Dec. 5 to Nov. 5, under penalty of \$50 to \$100 and confiscation. Deer killed under license may be shipped if a coupon cut from the license is attached.

Hunting with dogs is prohibited, except in the southern and central counties and dogs are declared a public nuisance if found running deer.

Eating growing grain or enclosed pastures without the owner's permission and hunting or shadowing therein is punishable by fine without effect on civil liability.

The transportation of fish out of the open season is guarded more stringently.

There is a general increase in the fines and penalties with a view to making larger fund for protection, as all fines, proceeds of confiscation and license moneys constitute a fund to defray the expenses of protection.

An Experience Party.

The Young Ladies' Sodality will hold an experience party at the Foresters hall next Thursday evening to which there will be a small entrance fee of 10 cents charged and an additional ten for refreshments. One of the amusing parts of the entertainment will be the contest for the prize. Each of the young ladies is to earn one dollar for the society and the one who does it in the most novel manner will receive a prize. A good time may be looked for by those who attend.

Love-Kells.

On Sunday evening occurred the marriage of William J. Love and Miss Jessie Kells, both of this city, the ceremony being performed by Justice W. H. Getts. Miss Eva Demarais acted as bridesmaid and Bert Lichty as best man.

The wedding was a very quiet affair not even the relatives of the contracting parties knowing of it until the young people told them on the following Tuesday.

Both of the young people have a host of friends who will wish them success on the journey through life and the Tribune also extends congratulations. Mr. and Mrs. Love will reside in this city.

Drowned in Yellow River.

Benjamin Wood, a young farmer living near Nasonville was drowned in the Yellow river on Thursday of last week while attempting to save the life of Harry Eimerman, who had fallen into the river while fishing.

The accident occurred at the old Linster dam. Young Eimerman was sitting on the dam fishing when he lost his balance and fell into the pool below. He managed to get out, however, and when he returned to the dam he found a hound and a pair of shoes on the dam near where he had been sitting. As he had been entirely alone he surmised that some one had jumped into the river after him, although he had seen no one. He notified some people living near and a search was started. A team was found standing on the road with no driver and as time passed and the driver did not appear a search was started in the river bed. A grappling iron was improvised and the river dragged and the following day the body of the young man was found.

Young Wood was a bright intelligent young fellow and was the sole support of a mother and two sisters. The funeral was held from the Good Tempers hall in Nasonville on Sunday afternoon.

To Enlarge Plant.

At a meeting of the directors of the Electric & Water Co. last night it was decided to increase the capacity of the electric plant by putting in a new engine, boiler and dynamo which will more than double the present capacity. The cost not to exceed \$12,000. This is needed to provide for the increase in electric lighting as well as the power needed to pump the city water.

—George Monlon, the expert plasterer and stone mason, is prepared to attend to all work in his line. The best of work guaranteed.

Railroad Notes.

Within a week there will be fully 200 men employed on the construction of the Princeton branch between this city and Grand Rapids. About 100 men are now at work. Last evening one-half mile of side track was completed near the veneer factory which will be used for handling construction material. Coal sheds will be built in the same vicinity, which taken in connection with doubling the capacity of the roundhouse, proves conclusively that this will be the end of the Princeton division and also puts an end to the rumor that the C. & N. W. intends to purchase the Omalia road. Marshfield News.

On Tuesday Supt. A. R. Horn, Div. Freight Agent C. H. Graddy, Div. Engineer A. J. Landers and Roadmaster F. C. Baker, of the Central company, made a trip over the Nekeousa branch to inspect the property and agree on the improvements to be made this summer. One item is 15,000 new ties which will be put in at once between this city and Marshfield. What further improvements will be made on the road have not been made public.

Work on both sides of the river has been carried actively forward during the past week with the result that work on the bridge across the river will commence in the near future. O. H. Bates of Chicago has the contract for doing the trestle work for the new structure.

The work of securing right of way for the Northwestern road between this city and Marshfield has been about completed.

GRAND RAPIDS AHEAD.

Our High School Boys Win by Only One Point.

Notwithstanding inclement weather and a forty mile ride our high school boys went to Wausau last Saturday and scooped the team up there by one point on their own grounds. Wausau showed a slight advantage in track events, but Grand Rapids more than balanced this in the field work. At the close of the contest the score stood 71 to 70 in favor of Grand Rapids.

The boys are warranted in feeling jubilant over their victory, for they were up against a city that had almost three times as many inhabitants to draw from and while they had really feared defeat, they went in and did their best to win. Following are the events:

100-yard dash—Scotfield, Lipke, Akey. Time, 12 3/4.
220-yard dash—Scotfield, Jenkins, Lamont. Time, 28.
440-yard dash—Scotfield, Wood, Lamont. Time, 58 1/2.

880-yard dash—Breitkreutz, W. Corcoran, Menzel. Time, 2:15.
One mile run—Breitkreutz, Zuehlke, J. Corcoran. Time, 5:34.

High jump—Wood, Lipke, Gilham. Height, 4 ft. 8 in.

Mrs. Gothica Dead.

Mrs. Lucy Gothica, wife of Joseph Gothica, one of the old residents of this city, died on Friday afternoon, May 17, at 12:30 o'clock, after a lingering illness, extending over several years. The deceased lady was 89 years of age, and had made her home during the past twenty-six years at the home of her son-in-law, Nelson Passineau. She leaves a husband and three children, one son and two daughters, they being Joseph Gothica of Grand Rapids, Mich., Mrs. Hattie Passineau of this city and Mrs. Jennie Colditz of Chicago.

Mrs. Gothica was a sister of Solomon Janzen, who has been famous as the founder of Milwaukee, and the old lady, many years ago, resided in that region. She came here from Menasha, however, where she had resided a number of years.

The funeral will be held from the Catholic church in this city on Sunday.

A Famous Old House.
The house of Walter Baker & Co., whose manufactures of cocoa and chocolate have become familiar in the mouth as household words, was established one hundred and twenty-five years ago (1785) on the Newport River in the old town of Dorchester, a suburb of Boston. From the little wooden mill, "by the side of the bridge that crossed the flood," where the enterprise was first started, there has grown up the largest industrial establishment of the kind in the world. It might be said that, while other manufacturers come and go, Walter Baker & Co. go on forever.

What is the secret of their great success? It is a very simple one. They have won and hold the confidence of the great and constantly increasing body of consumers by always maintaining the highest standard in the quality of their cocoa and chocolate preparations, and selling them at the lowest price for which unadulterated articles of good quality can be put upon the market. They welcome honest competition; but they feel justified in demanding in the strongest terms the fraudulent methods by which inferior preparations are palmed off on customers who ask for and suppose they are getting the genuine articles. The best grocers refuse to handle such goods, not alone for the reason that, in the long run, it doesn't pay to do it, but because their sense of fair dealing will not permit them to add to the sale of goods that defraud their customers and injure honest manufacturers.

Every package of the goods made by the Walter Baker Company bears the well-known trade-mark, "La Belle Chocolatiere," and their place of manufacture "Dorchester, Mass." Housekeepers are advised to examine their purchases, and make sure that other goods have not been substituted.

An attractive little book of "Chocolate Recipes" will be mailed free to any householder who sends her name and address to Walter Baker & Co., Ltd., 138 State Street, Boston, Mass.

Japs Live to Learn.
The foreigner traveling in Japan is soon made aware of the quality of curiosity, says a writer in *Alfred's Magazine*. On every railroad platform he is surrounded by a crowd of people who, with their mouths as wide open as their eyes in their effort to lose no detail of interest, regard him slowly from head to foot, and comment upon him among themselves the while. "These people may have seen hundreds of foreigners—they may see them every day—but they continue to act as if they had never seen one before. I visited some Americans in Tokio who had lived in the same house with the same Japanese neighbors for about a year. Yet each time we went out to drive the people in the little Japanese house nearly would rush to their windows and stand there watching us eagerly as a small Yankee at the circus. This happened every day."

A Miracle Explained.
Bryant, Mo., May 13.—The sensational cure of Mrs. M. A. Goss, of this place, has sent a ripple of excitement all over Douglas County, and Dodd's Kidney Pills, the remedy in question, are receiving thereby the greatest advertisement any medicine has ever had in this State.

To satisfy the many inquiries which she finds it impossible to answer by letter, Mrs. Goss has sent the following statement of her case to the *St. Louis Globe-Democrat*:

"I did not think I could live a day and suffer, as I have lived and suffered for months with Sciatica and Rheumatism. I used herbs and liniments of all kinds. Two physicians treated me, one of them for two months. Nothing helped me in the least. I never slept more than ten or fifteen minutes at a time. I was bedfast, and had to lie on one side all the time. I used to wish for death, to deliver me from such torture."

"A friend suggested Dodd's Kidney Pills, and after I had used them a week I began to improve, and in about four weeks I could sit up in bed. A few days later I walked a quarter of a mile and back. I now do all my own cooking and house work. The pain has entirely left me, and I am a well woman. I have taken altogether sixteen boxes of Dodd's Kidney Pills. Dodd's Kidney Pills saved my life."

"MRS. M. A. GOSS."

People come for miles to see Mrs. Goss, and hear her wonderful story. Dodd's Kidney Pills are working marvelous cures in Missouri.

Milk of the Buffalo.
The government of India has recently published an interesting note on the milk of cows and Indian buffaloes. This is based on the work of Dr. Leathes, and states that the milk of the Indian cow corresponds very closely to that of the English one, but in the milk of the buffalo the proteins are in higher proportion and the lactose is in lower proportion than in cow's milk. Buffalo's milk usually contains much more fat also. The mineral matter is about the same.

Western Canada's December Weather
Equal to that of May in Minnesota.

To the Editor—Thomas Regan and C. Collins, of Eden Valley, Minn., went out to Western Canada last December as delegates, to look over the grazing and grain lands that are being offered at such low prices and reasonable terms. This is what they say:

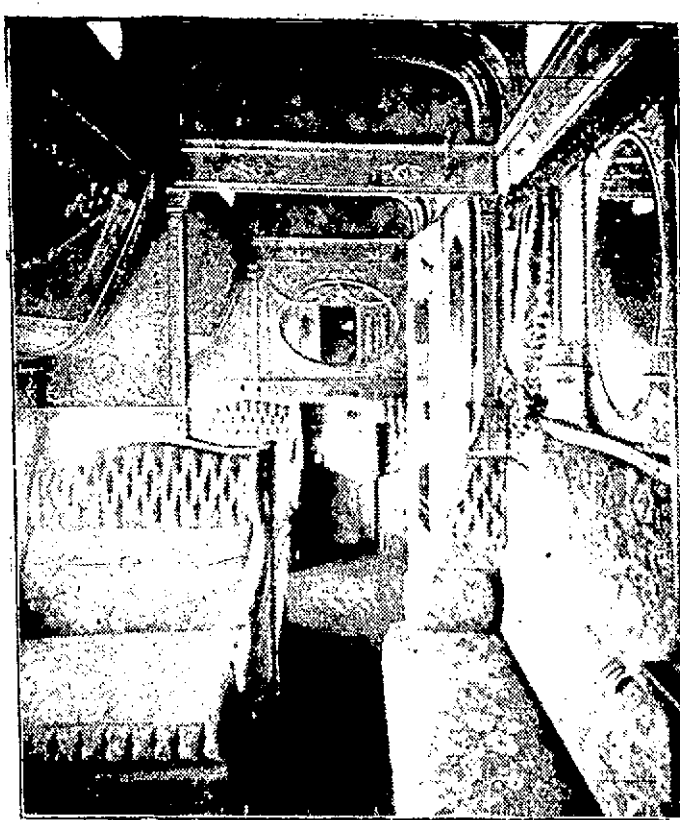

"We arrived in Calgary about the 20th of December, and although we had left winter in Minnesota and Manitoba, we were surprised to find beautiful warm weather at this point, quite equal to what we have in May in Minnesota. There was no snow nor trace of winter to be seen, and the climate was really splendid. Horses, cattle and sheep were running out in prime condition, with plenty of feed on the prairie, and really better than that of ours stabled in the South. We are impressed with this country as one of the finest mixed farming countries we have ever seen. The immense tracts of fertile lands well sheltered and abundantly watered leave nothing to be desired."

Leaving Alberta, we returned east and visited the Yorkton district in Assiniboia. We drove out about ten miles at this point, and were highly pleased with the splendid samples of grain we were able to see, wheat yielding twenty-five bushels, oats sixty bushels. Roots were also good specimens. From what we have seen, we have decided to throw in our lot with the Yorktoners—satisfied that this part of the country will furnish good opportunities for any one anxious to make the best of a really good country. Any agent of the Canadian government, whose advertisement appears elsewhere in the columns of your paper, will give you full particulars of the new districts being opened out this year in Assiniboia and Saskatchewan. Yours truly,

OLD READER.

SACRED VASE LOST.

Work of Art Believed by the Chinese to Possess Supernatural Powers.

Tien Tsin yielded last galore during the sacking of the native city last summer, probably greater in actual value than the plunder of Peking, but to this day there are many men who are still watching for trace of a famous vase. It is known as the "Vase of Tien Tsin" or "The Sacred Vase." The latter name was given it by the foreigners from the fact that the natives guarded it with wonderful care and preserved about it a secrecy even in excess of the natural religion of the Chinaman. So the Chinese have this piece of porcelain been hidden, so completely has its tracks been covered that a white man has had sight of it or been able to grasp a clue to its whereabouts since late in the autumn of last year.

That the vase of Tien Tsin exists, or did exist in October of last year, is an indisputable fact. That it was once in possession of an American for a few moments is also true and the story of how he lost this valuable piece of lost shows the remarkable cunning of the Oriental.

Description of the Vase.
From the fleeting glimpse obtained of the treasure it is described as about two feet tall and very graceful in design, the material being the famous oxidized red. The swell of the vase was banded with several cross bands of beautiful chiseled work of the old Peking workmanship. To the foreigner with Oriental art work and porcelain its value will readily appear. Many buyers of bric-a-brac who arrived in Tien Tsin shortly after the fighting in search of bargains exhausted every effort that money and ingenuity could suggest in a vain search for this work of art.

The vase of Tien Tsin was first heard of by the foreign police of the native city. This was a force composed of small contingents from all the powers represented in the alliance which, under direction of the provincial government of the city, had charge of the entire native or walled city. As an auxiliary to the foreign police a large number of natives were appointed, and it is probable that the rumor of the vase's existence first leaked out from this source. Inquiries were set afoot, as it was understood that the vase was not in possession of its rightful owners. But who they were has never been disclosed, although it was commonly reported to be the property of a temple. The search for the vase, both on the part of the police and the buyers and their agents who had gotten wind of the matter was prosecuted most thoroughly for several months, until even the faint clues which for a time had kept hope of its discovery alive disappeared and absolutely all trace of it was lost.

Seen by Chance.
In the densely-populated city of Tien Tsin, with its teeming thousands in narrow streets and tortuous by ways, its blind alleys and maze-like courts of house within house, connecting buildings and courtyards, the hunt for the vase of Tien Tsin was like that of the proverbial needle in the mythical haystack. Yet chance, a single stroke of blundering good luck, disclosed the treasure for a few brief moments, and for a like length of time placed it in possession of a white man, though at the time he was not aware of its luck or the value of what he thought was only an unusually pretty piece of china.

The event occurred in one of the most remote sections of the walled city, near the south arsenal, and but a short distance from the gate which the Japanese and Americans first entered after the fighting in June. In this portion of the native town the shells had wrought terrible havoc, and the flames added to the ruin. Square after square of crumbling walls and debris-filled streets showed where the allies did their work completely, and only in scattered localities here the natives gathered and resumed their ventures. Late in October a disturbance occurred in this vicinity which necessitated a search of the houses, and it was while this was in progress that the vase turned up.

Unusual Actions.
It was noticed when the military police arrived that there was a large crowd of Chinese present. They gathered rapidly, like a crowd at a city fire, and the fact attracted attention from the soldiers. Ordinarily when the foreign devils appeared there would be a quick scattering of the native loungers, and they would disappear like rabbits in a warren at the approach of a uniform. But around the house of the native who was not aware of his luck or the value of what he thought was only an unusually pretty piece of china.

A UNITED STATES MARSHAL

Thanks Peruna for His Rapid Recovery From Catarrh.

EX-UNITED STATES MARSHAL MATTHEWS, OF MISSISSIPPI.

Hon. S. S. Matthews, ex-United States Marshal of Mississippi, in a recent letter to The Peruna Medicine Company of Columbus, Ohio, written from Hazelhurst, Miss., says:

"I am happy to say that I am cured of catarrh and need no more attention from you. It is a great satisfaction that I am able to write you that Peruna has in my case done all that you claim, and that I will need no more medicine."

Protection of Sea Birds.
The American Ornithologists' union succeeded last year in protecting by means of carefully-selected wardens, all of the known breeding grounds of the sea birds along the Northern Atlantic coast from Virginia to Maine. The union now appeals to the public for funds to enable it to extend its protection to the birds along the Southern Atlantic and Gulf coasts.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Wireless Telegraphy.
Attempts are being made by the Marconi Wireless Telephone company of London to inaugurate a wireless telegraph service to Australia. Although the total distance is considerably in excess of that from England to this country, it can be more easily negotiated owing to the facilities offered at various points on route for transmitting stations. Arrangements are being made to erect stations at Frawley Point, the Lizard, Ushant, Cape Finisterre, Gibraltar, Malta, Algiers, Sicily, Cape Malia, in Greece, Alexandria, Aden, Socatra, Colombo, Sumatra, the Cocos Islands, Perth, Albany, Adelaide and Melbourne.

If Coffee Poisons You,
ruins your digestion, makes you nervous and sallow complexioned, keeps you awake nights and acts against your system generally, try Grain-O, the new food drink. It is made of pure selected grain and is healthful, nourishing and appetizing. It has none of the bad effects of coffee, yet it is just as pleasant to the taste, and when properly prepared can't be told from the finest coffees. Costs about 25c as much. It is a healthful table drink for the children and adults. Ask your grocer for Grain-O. 15 and 25c.

—A nugget of gold weighing 122 ounces has been found at Karaulpi, West Australia.

The great catarrh cure this remedy is, it says after others have failed, to be found upon the catarrh cure to the patients. There are those who say, "I have been a sufferer from catarrh six or seven years, and after trying many remedies I was induced by a friend to take Peruna. The results have been highly satisfactory. I take pleasure in recommending Peruna to any one suffering with catarrh, as my cure is complete."

Hon. B. B. Boyner, Congressman from West Virginia, in a letter from Washington, D. C., to The Peruna Medicine Co., says the following of their catarrh remedy, Peruna:

"I join with my colleagues in the House of Representatives in recommending your excellent remedy, Peruna, as a good tonic and also an effective cure for catarrh."

Mrs. Mary C. Fontress writes from Paradise, Tex., the following: "I think I can say that your good advice and medicine has cured me of chronic catarrh. I have had no pain in my head since I have taken Peruna. I have been in bad health ever since '79, and have taken a good many medicines which were only of temporary relief. Peruna is the catarrh cure. The Peruna stopped my catarrh of the head so that it did not become chronic, and I am very thankful for Dr. Hartman's advice and medicine."

Peruna is a specific for all catarrhal diseases. It acts quickly and beneficially upon the inflamed mucous membrane, thus removing the cause of catarrh.

Catarrh is catarrh wherever located. Catarrh is essentially the same everywhere. The remedy that will cure catarrh in one situation will cure it in all situations.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Uses of Sawdust.
Sawdust is used in Scotland to some extent in making floorcloths and linoleums, certain kinds of heavy stamps or embossed material to be used instead of wallpaper, coarse wrapping paper and millboard and certain road substitutes for domestic use. It is also employed mixed with melted resin in making fire-lighters.

POOR LITTLE JOHNNY! AND HIS "TUMMY"!

Small boys, and many times large ones, suffer terribly from convulsive pains or "cramps" in the bowels and stomach—pain so violent that it "doubles up" the ones attacked, and makes it impossible for them to stand up.

Some people call it colic, but most honest, plain-spoken people call it "belly-ache" and very properly, for the seat of the trouble is in the bowels, and caused by the violent efforts of the bowels to rid themselves of something which doesn't belong there. The small boy usually gets it from over-eating or from eating forbidden fruit, and suffers mostly in the summer time.

It's spring now, and "in times of peace, prepare for war." Let the boys and girls and the big folks, too, for that matter, clean out the clogged channels filled with winter bile and putrid undigested food, strengthen the 30-feet of bowel canal, liven up the liver, and "summer belly-aches" will have no terrors, because they won't happen. The way to make the body ache-proof is to use CASCARETS, gentle, sweet, fragrant CASCARETS, the perfect system cleaners and bowel strengtheners. For fear that anybody in the family should ever be attacked by belly-ache, keep a box of CASCARETS in the house always, and remember that all pains and troubles in your insides are

To Burn Lumber Camps.

There is a probability that all the lumber camps in the northern part of the state will be burned down this summer by order of the state board of health. During the past two winters the many camps have been the breeding places of smallpox, and it is feared that the disease will develop in more deadly form next winter unless heroic measures are taken for its suppression. This project has been in the mind of the state board for some time, and has been broached before. Dr. Wingate of the state board of health has expressed himself as fearful of a deadly epidemic next winter unless the disease is suppressed in the meantime. The present scourge he pronounced the mildest in the history of medicine. Nevertheless, he said that it was true smallpox, and liable to develop into a virulent plague if it was not properly handled. The state board will decide the question of burning the camps soon.

CRANMOOR.

Friday, Saturday and Sunday nights were trying ones for cranberry men. The heavy, growing weather of two weeks previous suddenly changed late in the day Friday, the wind coming cold and strong from the north and northwest, coupled with a falling temperature indicated severe frost. Nearly all the growers were night watches, flooding and otherwise caring for their marshes as the mercury showed the need. Fortunately all had fairly well filled reservoirs and could protect the vines which are well advanced for this time of the year. It is a little early to note if any damage was done, though it is possible some buds were touched. Friday night before marshes were flooded.

A. E. Bennett, wife and children were Grand Rapids guests Saturday and Sunday.

RUDOLPH.

Patrick Case narrowly escaped losing his home by fire last Wednesday evening. Mrs. Provost, who chanced to be passing, saw the fire and alarmed the family. The old gentleman made a gallant fight for his own but the fire was rapidly gaining on him and there is little probability that he could have saved anything but for the arrival of Joe Provost on the scene, who quickly notified neighbors. Willing hands soon had the flames under control and, although somewhat unimpaired, the worthy old couple sustained no further loss than a partly burned roof and a drained well.

O. J. Leu, county superintendent of schools, was calling at the schools of this town during the week.

The sociable at C. H. Compton's was quite largely attended and a pleasant evening was had by all.

GENERAL COUNTY.

A cow belonging to John Paine of Marshfield was killed by the state veterinary last week on account of being afflicted with tuberculosis. The state pays two-thirds the damage in a case of this kind, while the owner of the animal stands the other third. The state veterinary also visited Arpin where it was reported that a team belonging to John Sturm was suffering from glanders.

A petition is being prepared which will be presented to the Northwestern railroad officials asking them to build their depot at or near Martin Pylly's place, situated about a half mile south of Arpin instead of at Arpin. They claim that this will be a more central point for all farmers thereabouts than at Arpin as there are cross roads there and there will also be a cheese factory and store.

A party of two hunters have been engaged in hunting wolves in the town of Hansen during the past two weeks and so far have met with considerable success. During last week they succeeded in killing six wolves and on Wednesday they killed eight of the animals. They were hunting with dogs.

Jacob Bord has secured the contract to erect a brick barn for David Taylor who resides about a mile and a half north of Grand Rapids. Jake has been suffering from an attack of pink eye for some time past.

C. E. Fero and H. Waddell of Pittsville last week commenced work on the new school house which is to be erected in the town of Seneca this summer.

Edwin Dexter of Marshfield was granted a pension of \$30 last week.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Trial bottles free. Guaranteed bottles 50c and \$1 at Johnson & Hill Co. and John E. Daly's drug store.

SHERRY.

John Oaks, who has been engaged in clearing land on John Pospisiel's place for E. Leidholdt, met with an accident on Friday which resulted in the breaking of his right leg below the knee. He was dragging out a stump with a team when it caught and tipped on to his leg, breaking both bones. Dr. Ridgman was summoned from Grand Rapids to reduce the fracture.

E. Leidholdt of the town of Carson, Portage county, has been engaged by John Pospisiel to take charge of the latter's farm. Mr. Pospisiel has a farm of 540 acres and men are engaged this spring in clearing another eighty acres. Mr. Leidholdt has leased his farm in the town of Carson to Peter Casper.

Shudders at His Past.

"I recall now with horror," says mail carrier Burnett Mann, of Levanua, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan, I felt tired worn out, about ready to give up, when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man." They've unraveled to regulate stomach liver, kidneys and bowels. Perfect satisfaction guaranteed by Johnson & Hill Co. and John E. Daly. Only 50 cents. Free trial bottles.

Marriage Licenses.

The following marriage licenses were granted during the past week:

Clarence Dakin of Plover to Lottie Newman of Grand Rapids.

Frank H. Hasselberger to Amanda Koch both of town of Marshfield.

Fred Faudiek to Carrie Lepsh, both of New Vesper.

Godfrey Schiller to Mary Kollich, town of Wood.

John Maxwell to Blanch Prevenow, town of Richfield.

Theodore Wissink to Edith Abcildt, Marshfield.

No Loss of Time.

I have sold Chamberlain's colic, cholera and diarrhoea remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are as well again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by Johnson & Hill Co.

When Governor LaFollette vetoed the primary election law he seems to have caused the displeasure of a large number of people and many of them do not seem to know just what they are kicking about. We have not seen a copy of the bill since it received its numerous amendments, but if it was so materially changed as the friends of the original measure claim, he is not to be blamed, but rather commended.

Business Opportunity.

Saloon property and seven acres of land in town of Sigel for sale. Also 100 acres of farming land, 60 acres under cultivation. Order some ice cream made at the 20th century place by phone No. 155. Cheapest and best. 35 cents a quart, 51 per gallon.

At the meeting of the county board the name of the town of New Vesper was changed to Hansen. This makes the town and postoffice name the same and is not so confusing as the old way.

The Wood County Telephone company has ordered 3,000 feet of cable which will be used to replace the wires on some of the poles along the main thoroughfares which have become overloaded.

The high school track team will compete for honors at the Appleton school athletic meet on Saturday. If the boys do as well as they did at Wausau we may expect them to occupy a high place in high school athletics.

The school commissioners met on Thursday evening for the purpose of engaging teachers for the ensuing year, but only one application was acted upon. Many of the teachers have not responded to invitations extended to them so that no action can be taken in the matter.

—Two colts for sale, one coming two years, one coming three years. Inquire at John Pospisiel's place, town of Sherry.

Deputy Sheriff Fred Warzinski of Marshfield was arrested on Saturday, charged with practicing as a veterinarian without being properly qualified. The arrest was caused by State Veterinarian W. S. Powell. He pleaded not guilty and the case was adjourned to May 20.

On Sunday all the train crew on the Southwestern had to take a physical examination before Wisconsin Central physicians at Stevens Point. Those examined were Conductor John Anderson, Engineer P. J. Lyons, Fireman P. F. Hayden and John Russell, brakemen Nels Anderson, Lawrence Bord and Henry Kempe.

Two business men were conversing on the street corner the other day when a lad of about fifteen passed by and one of the men remarked: "That's a bright boy; I am watching him. If he gets through another year or so without contracting any of the bad habits so prevalent among sixteen-year-old boys in town, I know where he will get the offer of a mighty good position." The boys should remember that they are being watched by business men. The boy who is studious, industrious, prompt, energetic and reliable is preparing the way for a good proposition from somebody. There are not enough such young men to supply the constant demand.—Ex.

The silver plating compound manufactured by Mrs. Bloyer can be procured at Geo. W. Davis' or by calling up the laundry.

What is said to be one of the best bills which has been passed by the legislature is a measure which has so far attracted very little attention and it provides that any graduate of a district school can attend the high school in the city nearest the town in which he resides and that the town must bear the expense of his tuition. This is a bill which has the strong support of the educational interests of the state and it is declared will prove a measure which will do a great deal to aid the residents of the country districts in obtaining a higher education. It is also expected that the fees for tuition which the village schools will receive will amount to an inconsiderable sum and that, all around, a good many benefits will accrue from the plan.—Manitowoc Times-Press.

J. Bascom Robins, the young traveling man who shot and killed W. W. Fenelon, a merchant at Rhineland, last August, died of pneumonia in Chicago Tuesday. Robins was on his way to Rhineland to stand trial on the charge of murder when he was taken ill. The shooting caused a great sensation in Rhineland at the time it occurred. Robins entered the store of Fenelon and started a wild flirtation with a young woman clerk, finally asking her out to supper. Fenelon saw them talking and when the girl told him that Robins had tried to "make a date" struck him in the face. Later Fenelon sought out Robins at the latter's hotel and advanced on him in a threatening manner when Robins pulled a revolver and shot killing Fenelon almost instantly. Local sympathy was largely with Robins.

The joint committee of the legislature on Tuesday afternoon agreed on the congressional apportionment and the same has been adopted by both the assembly and senate. This new apportionment makes considerable change in what has heretofore been the ninth congressional district but will hereafter be the Tenth congressional district. The new district will be composed of Ashland, Iron, Vilas, Forest, Florence, Price, Oneida, Taylor, Lincoln, Langlade, Marathon, Shawano, and Wood counties. The only new county added to the old ninth district is that of Wood, while Clark, Marinette and Oconto have been dropped, the first one being in the seventh district and the last two in the eighth district. It will leave the republican majority in this district much smaller than it was under the old apportionment. Of course it was the aim of the legislature to make eleven districts that would be solidly republican, but the democrats will have a good fighting chance in at least two of them.

Don't be a drag on the community. Either stand up for your town or go somewhere that suits you better. If the glorious Wisconsin weather don't suit you, go where it is hotter. If the soil don't suit you, don't vegetate in it. If the whole community is going to the demolition box-wows in a hand cart you had better get out before the linchpin breaks and throw you, head first, into the bottomless pit. If it is dyspepsia or liver complaint that makes a pessimist of you, go to the doctor and tell him to charge the bill to the public welfare. We are in the march of progress. Our city and county are going forward and we have neither time to go around clouds nor kick them out of the way, so if you wake up some morning and see that the procession has passed you will know that you have been run over.

Stevens Point Gazette: Louis J. Cle, A. P. Jensen, C. H. Wellen-schlager, John Kalka, Aug. Samson, and Frank Botnic are a half dozen Stevens Point masons who are at Grand Rapids engaged in erecting a handsome new brick residence for T. E. Nash and which will cost about \$30,000. The building will be 66x70 feet, three stories and modern throughout. Mr. Nash will also have one of the finest stables in Central Wisconsin, it being 30x70 feet in size, two stories with basement, the second floor to be fitted up with living rooms for coachman and other employees. In circuit court at Grand Rapids, Monday, N. Elden-Mitschen was appointed as receiver of the Pavelski farm in the town of Sharon. The receivership is brought about on account of a so-called bread and butter case, in which the plaintiff recently received a judgment of \$2,000 against the defendant and the farm will be sold to pay the judgment.—W. H. Carey, Dr. Hengen, W. J. Conway and R. W. Morse of the excellent citizens of Grand Rapids, spent Friday night in the city, coming over to enjoy the hospitality of the local lodge of Elks.—C. F. FISH AND GAME LAW.

Extracts from The Wisconsin Game Law as Now Constituted.

The legislature has made no significant alterations in our present fish and game laws. Following is a synopsis of the law as now amended:

The fish and game warden appointed by the governor is to appoint two deputies in each county and as many special deputies.

The deputies are paid a per diem for the days they are under direct order, and their necessary expenses.

Licenses for hunting game are continued. Non residents to obtain them of the secretary of the state, residents from county clerks, as at present.

For hunting without license the fine is from \$50 to \$100.

The hunting season for deer is the last twenty days of November. In Sheboygan, Calumet, Manitowish and Fond du Lac counties deer hunting is forbidden entirely.

Rabbits and squirrels are placed under protection from May 1 to July 1. Muskrats will not be protected at all. Guns, traps, boats and other implements used in violating the law and all game wrongfully taken may be seized and confiscated and sold by any warden.

The provisions as to shipping game are made more stringent. There may be one shipment a day in the open season if not to exceed twenty-five birds, this applying only to woodcock, partridge, pheasant, prairie chicken, grouse and plover; aquatic fowl and snipe may be shipped to the number of fifty provided they are accompanied by owner. Deer or parts of carcasses and hides, heads of the same can not be shipped at all from Dec. 5 to Nov. 5, under penalty of \$50 to \$100 and confiscation. Deer killed under license may be shipped if a coupon cut from the license is attached.

Hunting with dogs is prohibited, except in the southern and central counties and dogs are declared a public nuisance if found running deer.

Entering growing grain or enclosed pastures without the owner's permission and hunting or shadowing therein is punishable by fine without effect on civil liability.

The transportation of fish out of the open season is guarded more stringently.

There is a general increase in the fines and penalties with a view to making larger fund for protection, as all fines, proceeds of confiscation and license moneys constitute a fund to defray the expenses of protection.

An Experience Party.

The Young Ladies' Sodality will hold an experience party at the Foresters hall next Thursday evening to which there will be a small entrance fee of 10 cents charged and an additional ten for refreshments. One of the amusing parts of the entertainment will be the contest for the prize. Each of the young ladies is to earn one dollar for the society and the one who does it in the most novel manner will receive a prize. A good time may be looked for by those who attend.

Love-Kells.

On Sunday evening occurred the marriage of William J. Love and Miss Jessie Kells, both of this city, the ceremony being performed by Justice W. H. Getts. Miss Eva Demarais acted as bridesmaid and Bert Lichty as best man.

The wedding was a very quiet affair not even the relatives of the contracting parties knowing of it until the young people told them on the following Tuesday.

Both of the young people have a host of friends who will wish them success on the journey through life and the Tribune also extends congratulations. Mr. and Mrs. Love will reside in this city.

Drowned in Yellow River.

Benjamin Wood, a young farmer living near Nasonville was drowned in the Yellow river on Thursday of last week while attempting to save the life of Harry Eimerman, who had fallen into the river while fishing.

The accident occurred at the old Linster dam. Young Eimerman was sitting on the dam fishing when he lost his balance and fell into the pool below. He managed to get out, however, and when he returned to the dam he found a hat and a pair of shoes on the dam near where he had been sitting. As he had been entirely alone he surmised that some one had jumped into the river after him, although he had seen no one. He notified some people living near and a search was started. A team was found standing on the road with no driver and as time passed and the driver did not appear a search was started in the river bed. A grappling iron was improvised and the river dragged and the following day the body of the young man was found.

Young Wood was a bright intelligent young fellow and was the sole support of a mother and two sisters. The funeral was held from the Good Tempers hall in Nasonville on Sunday afternoon.

To Enlarge Plant.

At a meeting of the directors of the Electric & Water Co. last night it was decided to increase the capacity of the electric plant by putting in a new engine, boiler and dynamo which will more than double the present capacity. The cost not to exceed \$12,000. This is needed to provide for the increase in electric lighting as well as the power needed to pump the city water.

—George Moulton, the expert plasterer and stone mason, is prepared to attend to all work in his line. The best of work guaranteed.

Railroad Notes.

Within a week there will be fully 200 men employed on the construction of the Princeton branch between this city and Grand Rapids. About 100 men are now at work. Last evening one-half mile of side track was completed near the veneer factory which will be used for handling construction material. Coal sheds will be built in the same vicinity, which taken in connection with doubling the capacity of the roundhouse, proves conclusively that this will be the end of the Princeton division and also puts an end to the rumor that the C. & N. W. intends to purchase the Omaha road.—Marshfield News.

On Tuesday Supt. A. R. Horn, Div. Freight Agent C. H. Graddy, Div. Engineer A. J. Landers and Roadmaster F. C. Baker, of the Central company, made a trip over the Nekeosa branch to inspect the property and agree on the improvements to be made this summer. One item is 15,000 new ties which will be put in at once between this city and Marshfield. What further improvements will be made on the road have not been made public.

Work on both sides of the river has been carried actively forward during the past week with the result that work on the bridge across the river will commence in the near future. O. H. Bates of Chicago has the contract for doing the trestle work for the new structure.

The work of securing right of way for the Northwestern road between this city and Marshfield has been about completed.

GRAND RAPIDS AHEAD.

Our High School Boys Win by Only One Point.

Notwithstanding inclement weather and a forty mile ride our high school boys went to Wausau last Saturday and scooped the team up there by one point on their own grounds. Wausau showed a slight advantage in track events, but Grand Rapids more than balanced this in the field work. At the close of the contest the score stood 71 to 70 in favor of Grand Rapids.

The boys are warranted in feeling jubilant over their victory, for they were up against a city that had almost three times as many inhabitants to draw from and while they had really feared defeat, they went in and did their best to win. Following are the events:

100-yard dash—Schofield, Lipke, Akey. Time, 12½.

220-yard dash—Schofield, Jenkins, Lamont. Time, 28.

440-yard dash—Schofield, Wood, Lamont. Time, 58½.

880-yard dash—Breitkreutz, W. Corcoran, Menzel. Time, 2:15.

One mile run—Breitkreutz, Zuehlke, J. Corcoran. Time, 5:51.

One mile bicycle—Werlich, Fleming, Johnson. Time, 2:47.

Relay was given to Wausau.

Pole vault was given to Grand Rapids.

Hammer throw—Gilham, Saylor, Brummond. Distance, 110 ft. 10 in.

Shot put—Lipke, Gilham, Bandelin. Distance, 34 ft. 4 in.

Discus—Bandelin, Bunge, Saylor. Distance, 89 ft. 2 in.

Broad jump—Bunge, Wood, Menzel. Distance, 17 ft. 8 in.

High jump—Wood, Lipke, Gilham. Height, 4 ft. 8 in.

Mrs. Gothica Dead.

Mrs. Lucy Gothica, wife of Joseph Gothica, one of the old residents of this city, died on Friday afternoon, May 17, at 12:30 o'clock, after a lingering illness, extending over several years. The deceased lady was 89 years of age, and had made her home during the past twenty-six years at the home of her son-in-law, Nelson Passineau. She leaves a husband and three children, one son and two daughters, they being Joseph Gothica of Grand Rapids, Mich., Mrs. Hattie Passineau of this city and Mrs. Jennie Coiditz of Chicago.

Mrs. Gothica was a sister of Solomon Juneau, who has been famous as the founder of Milwaukee, and the old lady, many years ago, resided in that region. She came here from Menasha, however, where she had resided a number of years.

The funeral will be held from the Catholic church in this city on Sunday.

CIRCUIT COURT CONVENES.

An Unusually Long Session in Prospect.

Circuit court convened in this city on Monday with Judge O'Neill of Neillsville in the chair. The calendar was an unusually long one this year and although several cases have been continued over until next term and others dismissed, there is no doubt but that the session will last well into next week. Among the cases that have been disposed of are the following:

State of Wisconsin vs. Henry Hanger. This was for placing obstruction on railway track. The case was dismissed by the district attorney before coming to trial.

State of Wisconsin vs. L. C. Gibbs, embezzlement. Case continued until next term of court.

State of Wisconsin vs. Louis Collier, assault and attempted rape. Defendant found guilty of simple assault. Sentence not made.

State of Wisconsin vs. Charles Payne, rape. Charge changed to adultery and defendant found guilty. Sentence not made.

Henry Mundt vs. the City of Wausau. Case dismissed.

Kenneth W. Jacobs vs. the R. Connor company. Settled.

Louis Menier vs. August Passer. Continued to next term of court.

Edward Huban vs. the Princeton & Northwestern Railway company. Two cases. Settled out of court.

Minnie Johns vs. Jacob J. Emerick. Breach of promise. Settled out of court.

Jere D. Witter vs. the Princeton & Northwestern Railway company. Continued.

Julius T. Welch vs. George H. Reynolds. Settled out of court.

W. H. Budge vs. John Clapper. Continued to next term of court.

The Lyman Lumber company vs. Robert H. McMullen. Continued to next term of court.

Lizzie Bey vs. Martin Bey. Settled out of court.

The State of Wisconsin upon the complaint of Henry Horn vs. William Hirth. Judgment in favor of Mr. Hirth.

Wm. Annes vs. Ferdinand Phillips. Case continued until next term of court.

Charles Briere, Frank Pomainville and Caroline Briere vs. T. A. Taylor, John A. Gaynor, Jacob Searles and the Gaynor-Blackstone Cranberry Co. Continued.

F. W. Kickbush et al. vs. Chas. P. Corwith and James McCrossen et al. Continued.

Mary Miller vs. Julius Miller. Action for divorce. Decree granted.

BUFFALO'S BIG SHOW

PAN-AMERICAN EXPOSITION A GORGEOUS DISPLAY.

Plenty of Contrast and Color, Unlike the Chicago Fair—A Correspondent Says It's Well Worth Crossing the Continent to See.

Buffalo correspondence:

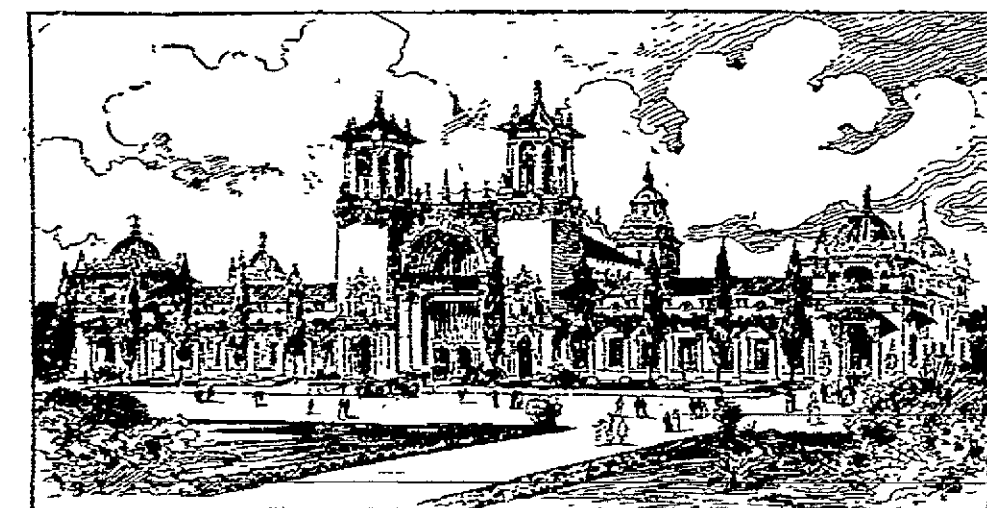

The Pan-American exposition in many respects ought to be the most successful international exposition ever held in America. The Centennial at Philadelphia and the Columbian World's Fair at Chicago are the only exhibitions that can fairly be compared with the Pan-American at Buffalo. Each of these was held in a season of bad times. The nation was sick at heart. Most of the people were too poor for entertainments. Buffalo gets the benefit of the most marvelous rush of prosperity the country has ever known. She has the advantage, too, of eight years of scientific progress over Chicago.

and of twenty-five years over Philadelphia—a quarter of a century as full of miracles as half a dozen centuries in slower times. And then she has Niagara Falls—a thing no other city could have matched eight years ago, or twenty-five, or at any other time.

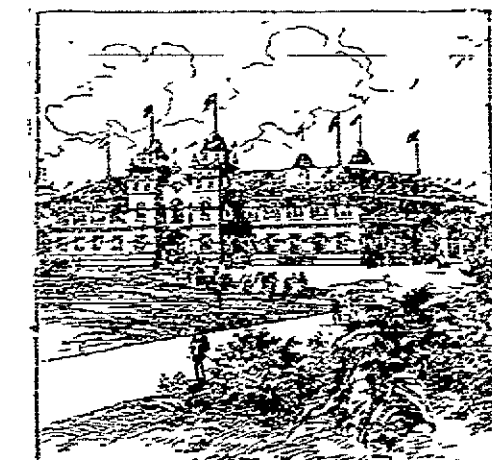

It is a happy thought of Buffalo to invite the world to come and see the falls while she has them. They will not last very long. Even if they were left to themselves they would probably wear away and disappear within the next ten or fifteen thousand years, but industrial enterprise is not likely to let us keep them even as long as that. Within the next half century the Niagara river may be all running through a double row of electric power tunnels, leaving nothing but a dry cliff where now the cataract surges. So all should hasten to Buffalo.

and prepare to tell their grandchildren truthfully that they once looked upon the glory of Niagara Falls.

The Pan-American Exposition is well worth crossing the continent to see. The buildings here, excepting those erected by the government for its exhibits, are in variegated tints the very opposite of the white city at Chicago. Opulent contrasts are offered by the red tile roofs, with the greens, yellows and other tasteful tints of the walls, and the blues, reds, gold, purple and other rich hues used in the decoration of the pavilions, arcades, cornices and towers of the Spanish renaissance architecture in which all the buildings are harmoniously constructed. At night the electric illuminations bring out in full the beauties of the statuary and of the many cascades. The effect is wonderful. Over 500,000 incandescent

lights are used in the marvelous illumination.

The things that greet the eye of the visitor in the Rainbow City give one a comfortable feeling, and the greetings of the Buffalo people enhance the pleasure. Comparisons are bound to be made between the Pan-American Exposition and the Chicago World's Fair. But the conditions are so different that comparisons are out of order. Experts in such affairs say the effects at Buffalo are more satisfactory because of the warmth in the coloring of the buildings, which gives a variety that was lacking in the White City.

These Pan-American grounds include 133 acres of improved park lands and are completely surrounded by big trees, lawns, canals and waterways. At the north is the railway approach, and at the south or city end is a shaded boulevard.

She Won't Give Up.

"Which sex is the more persistent, Mr. Smithers?"
"I thought everyone knew that. Thirty years ago, when we were married, my wife and I started in to make each other over. I gave up the job at the end of five weeks, and my wife is working at it yet."—New York Herald.

ward, the Lincoln parkway. The visitor, once in, stands with the music gardens at the left, the court of State and foreign buildings at the right and the triumphal bridge in front, from which he sees everything. On the east are the United States government buildings, on the west the buildings devoted to horticulture, forestry, mines and graphic arts.

OUR NEW POSSESSIONS.

Splendid Exhibit of Island Resources at Buffalo.

The diversified and valuable resources of Cuba are exhibited at the Pan-American Exposition. A Cuban building has been erected in the Court of State and Foreign Buildings and it is one of the most picturesque of this fine group. Its architecture and materials are peculiar to the island. The building is surmounted by the traditional "Tower of Havana," and attracts the attention of all visitors. It has a splendid view of the Park lakes, the Approach, the Fore Court, the Triumphal Bridge and other parts of the exposition. The exhibits are the best ever collected in the island and are entirely representative of its industries.

Porto Rico has a building desirably located in the Court of State and Foreign Buildings. The building was constructed entirely of native woods of all varieties and was built in Porto Rico and "knocked down," ready to be set up on its arrival at the exposition grounds. The island also has 1,200 square feet of space in the Agriculture Building and the same space in the Horticulture Building for exhibits. Most of the space allotted to the island in the Agriculture Building is occupied by a comprehensive exhibit of sugar, coffee and tobacco in various stages of growth and manufacture. Besides everything produced and manufactured on the island, instructive tables of information have been prepared which will be invaluable to agriculturists and others intending to invest in Porto Rico. The space occupied by the Philippine

exhibit covers four acres. It is laid out as a Filipino village with a broad street down the center from the front entrance. The buildings lining both sides of this street are of native construction of bamboo and nipa. A very complete collection has been made of the woods, flora, insect, reptile, animal and bird life of the islands. The trade, vocations, and professions of the natives are shown by natives at work, material in quantities for this purpose being a big part of the collection. This exhibit is one of the most important at the exposition.

NOTES OF THE BUFFALO FAIR.

Items of Interest to Prospective Visitors of the Exposition.

The biggest logs in the Western Hemisphere may be seen at Buffalo.

The Ohio State Historical and Archaeological Society has an exhibit.

Canada's exhibit at the Pan-American exposition occupies a space of about 2,000 square feet.

The Louisiana exhibit at the Pan-American Exposition occupies 2,000 square feet of space.

Stamp collectors all over the world are adding the new Pan-American series of stamps to their collections.

Wisconsin makes a very important display of agricultural products at the Pan-American Exposition.

Michigan has a splendid State building. New York State has about 4,000 square feet of space for its exhibit.

The ordinance exhibit at the Pan-American Exposition surpasses any display of the kind ever made at an exposition.

Chicago yachtsmen propose to organize a fleet of local yachts to cruise to Buffalo for the purpose of attending the Pan-American Exposition.

Sons' famous band, and more than thirty other great musical organizations have been engaged to give concerts at the Pan-American Exposition.

Every woman who visits the Pan-American Exposition will make comparisons between her home methods of cooking and those she will find in the electrical kitchen of the exposition.

The farmers of America are thoroughly interested in what electricity will do for them on the farm. In the electrical features of the Pan-American Exposition there is much for the members of farming communities to study, and they may see where the toil of the farm may be greatly lessened.

BOY IS SHOT BY SCHOOL TEACHER.

Accident at Meet of Gun Club at Glenwood—No Serious Results Anticipated.

Glenwood, Wis., May 14.—[Special.]—At meet of the Glenwood Gun club, Percy Jones, age 17, was shot in the arm and shoulder by the accidental discharge of a gun in hands of Prof. Theis, assistant principal of the high school. No serious results are anticipated.

FIRE THREATENS YACHT YANKEE.

Mysterious Blaze in the Plant of the Racine Boat Building Company.

Racine, Wis., May 14.—[Special.]—Fire broke out at noon in the plant of the Racine Boat Building company. The blaze originated under the shop, in which the racing yacht Yankee, which is being constructed in anticipation of the Canadian challenge cup regatta, is being kept. Prompt work of the workmen and members of the department extinguished the flames before much damage was done. Much wood and rags soaked in oil were under the shop and the fire started in the rags. The officials of the company cannot account for the wood and oil rags being left under the shop.

CUTS THROAT WHEN WIFE TURNED BACK.

Louis Richmond of Sheboygan, Who Had Been Ill for Years, Decides to End Suffering.

Sheboygan, Wis., May 14.—[Special.]—The fact has just become known that Louis Richmond, an invalid for the last twenty-five years, committed suicide. On Saturday afternoon Mr. Richmond asked his wife to get him a razor, saying that he wished to shave himself. She got the razor and gave it to him. The moment she turned away he slashed his throat from ear to ear. Doctors produced his life until Sunday morning, when he died. The impact was held and a verdict of suicide was returned. Mr. Richmond was 54 years of age. He is survived by his wife.

DAUGHTERS APPEAR AGAINST FATHER.

Woman Who was Widowed by Steward, Says He was Drunk and Not Insane.

Chippewa Falls, Wis., May 14.—[Special.]—Mrs. Mabel Miller, widow of G. A. Miller and daughter of Ira Steward, who is on trial for the murder of Miller, testified in court for the prosecution yesterday afternoon. She stated that her husband was at the trial. They both testified that their father was addicted to drink and when under the influence of liquor had threatened the lives of the members of the family. On the day the murder was committed both women said that their father was drunk. They had never known him to be insane. The state has some thirty-five witnesses who will also testify on those lines. It is expected the case will not go to the jury until Friday.

SELL FIRE WATER TO THE INDIANS.

Two Important Arrests Are Made by United States Marshal at Rhineland.

Rhineland, Wis., May 14.—[Special.]—P. O. Jonas of Madison, deputy United States marshal, made an important arrest yesterday. He came down from the Lac du Flambeau reservation today in charge of Steve Dwyer and Mitchell Dwyer, charged with selling liquor to Indians. The men under arrest were taken before L. J. Billings, United States court commissioner, and waived examination and were bound over to the next term of court. They will be taken to Madison tonight by Marshal Jonas to stand trial. The discovery was made by William A. Dwyer, a farmer on reservation, and liquor was found underneath a barn in which there was a false floor covered with hay. An effort will be made to locate the Minnesota saloonkeepers who are disposing of liquor at wholesale with retail licenses.

NEW HOSPITAL AT LA CROSSE OPENED.

It is Considered to be the Finest Institution of Its Kind in the Northwest.

La Crosse, Wis., May 14.—[Special.]—The new La Crosse hospital was formally opened to the public today. For the first time, a hospital was given over to a large number of society ladies, who have had charge of the furnishing of the building. The hospital cost, exclusive of the furnishings, amounting to nearly \$50,000, and it is without doubt one of the best institutions of its kind in the Northwest, and its furnishings are in the most elaborate of any hospital in the West, not excluding Chicago, Milwaukee or the Twin Cities. A vast amount of money has been spent in making it complete in every detail. The hospital has no accommodations for fifty patients. There are a variety of these located in the building, and the remainder are in single or private rooms. The operating rooms are complete in every detail. In entire charge of the hospital is Miss Edith M. Rogers, the superintendent, and an expert nurse from Chicago.

SETS BED ON FIRE AND CUTS THROAT.

Suicide of a Man in La Crosse Hotel—Despondent Because He Couldn't Stop Drinking.

La Crosse, Wis., May 14.—[Special.]—E. K. Cassidy, a traveling man for H. E. Horne & Co. of this city, and residing from Milwaukee, set his bed on fire at the Hotel Julien here. Despondent over his inability to leave whisky alone was the cause. At noon smoke was seen coming from the windows and doors of his room. The door was broken down and there the traveling man lay in a pool of his own blood and the bed was on fire. He evidently wished to burn his body after cutting his throat. He was 28 years old and had worked for the H. E. Horne company for four months.

MYSTERY SURROUNDS PRISONER'S ESCAPE.

Nothing to Show How J. W. Wilson Got Out of the Sauk County Jail.

Baraboo, Wis., May 14.—[Special.]—James W. Wilson, the only prisoner in the Sauk county jail, escaped last night. The doors were locked and windows secured, making his escape a mystery.

IMPROVEMENT IN BICYCLES.

Every Year Sees Easier Running and Better Wheels All Around.

A racing man whose name is familiar throughout the country made recently this statement on the general improvement of the construction of bicycles: "I know that every year my wheel is faster. The tires are made better, the construction of the wheels, spokes and rims are improved just a little each year, but enough to make them more resilient, and that means more speed. The bearings are pushed and pulled more perfectly; the chains and sprockets are harder, more true and more smoothly finished. All these things mean that the machines run easier. Then, too, the frame lines have been improved, and even that center. There has been a real revolution in the standard American wheel, have not been easier running and better all around than in the previous year. A new wheel means a saving on the track to a racing man, and it means much easier going on the road for every rider, if they only knew it."

Pronounce It.

Sigridur Jonasson, Kinnarstodum, Reykholmsveit, Iceland, Europe.

This is the address given in an order for Dodd's Kidney Pills received and filled by the Dodd's Medicine Company of Buffalo on April 16.

This unique direction means, that to reach the sick person of Iceland, the parcel must travel to New York, then to London, England, then northwest to Greenland, to be landed finally on the lonely island at the edge of the Arctic Circle.

This is a pointed illustration of how United States goods find their way to the remotest corners of the earth.

America to-day produces better medicines, as well as better manufactured articles, than any other country in the world, and this fact accounts for the demand for Dodd's Kidney Pills from every part of the known universe.

Irrigation in New Jersey.

A private citizen of southern New Jersey, who owns considerable land which is too dry during the summer months for successful farming, has determined to try irrigation, which has proved so wonderful in the dry lands of the West, and has consulted with the survey as to the best methods of laying out the work. This experiment will be watched with interest. There is no doubt that many other districts in the East could be greatly benefited and made much more productive if the example of the West were followed and systematic irrigation practiced.—New York Commercial Advertiser.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. It is good for you and the children. It makes the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee, but costs about 1/4 as much. All grocers sell it. 15c and 25c.

"Don't Speak to me."

All manner of extravagant expressions are possible when a woman's nerves are overwrought.

The spasm at the top of the wind pipe or bronchial tubes, "ball rising in the throat," violent beating of the heart, laughing and crying by turns, muscular spasms (throwing the arms about), frightened by the most insignificant occurrences—are all symptoms of a hysterical condition and serious derangement of the female organs.

Any female complaint may produce hysterics, which must be regarded as a symptom only. The cause, however, yields quickly to Lydia E. Pinkham's Vegetable Compound, which acts at once upon the organ afflicted and the nerve centers, dispelling effectually all those distressing symptoms.

Mrs. Lewis Says: "I Feel Like a New Person, Physically and Mentally."

"DEAR MRS. PINKHAM:—I wish to speak a good word for Lydia E. Pinkham's Vegetable Compound. For years I had ovarian trouble and suffered everything from nervousness, severe headache, and pain in back and abdomen. I had consulted different physicians, but decided to try your medicine. And I soon found it was giving me much relief. I continued its use and now am feeling like a new person, physically and mentally, and am glad to add one more testimonial to the value of your remedy."—Mrs. M. H. Lewis, 3108 Valentine Ave., Tremont, New York, N. Y.

Writing to Mrs. Pinkham is the quickest and surest way to get the right advice about all female troubles. Her address is Lynn, Mass. She advises women free. Following is an instance:

Mrs. Haven's First Letter to Mrs. Pinkham.

"DEAR MRS. PINKHAM:—I would like your advice in regard to my troubles. I suffer every month at time of menstruation, and flow so much and for so long that I become very weak, also get very dizzy. I am troubled with a discharge before and after menses, have pains in ovaries so bad sometimes that I can hardly get around, have sore feeling in lower part of bowels, pain in back, bearing-down feeling, a desire to pass urine frequently, with pains in passing it; have leucorrhoea, headache, fainting spells, and sometimes have hysteria. My blood is not in good condition. Hoping to hear from you, I am," Mrs. EMMA HAVEN, 2508 South Ave., Council Bluffs, Iowa. (June 8, 1899.)

Mrs. Haven's Second Letter.

"DEAR MRS. PINKHAM:—I wish to express my gratitude for what your medicine has done for me. I suffered for four years with womb trouble. Every month I flowed very badly. I got so bad that I could hardly do my work. Was obliged to sit or lie down the most of the time. I doctored for a long time, but obtained no relief. I began using your medicine—Lydia E. Pinkham's Vegetable Compound, Blood Purifier, Sensitive Wash and Liver Pills—and now feel like a new woman."—Mrs. EMMA HAVEN, 2508 South Ave., Council Bluffs, Iowa. (Feb. 1, 1900.)

A Famous Old Recipe.
The house of Walter Baker & Co., whose manufactures of cocoa and chocolate have become familiar in the mouth as household words, was established one hundred and twenty-one years ago (1750) on the Neponset River in the old town of Dorchester, a suburb of Boston. From the little wooden mill, "by the rude bridge that arched the flood," where the enterprise was first started, there has grown up the largest industrial establishment of the kind in the world. It might be said that, while other manufacturers come and go, Walter Baker & Co. go on forever.

What is the secret of their great success? It is a very simple one. They have won and held the confidence of the great and constantly increasing body of consumers by always maintaining the highest standard in the quality of their cocoa and chocolate preparations, and selling them at the lowest price for which unadulterated articles of good quality can be put upon the market. They welcome honest competition; but they feel justified in denouncing in the strongest terms the fraudulent method by which inferior preparations are palmed off on customers who are not supposed to be getting the genuine article. The best grocers refuse to handle such goods, not alone for the reason that, in the long run, it doesn't pay to do it, but because their sense of fair dealing will not permit them to aid in the sale of goods that defraud their customers and injure honest manufacturers.

Every package of the goods made by the Walter Baker Company bears the well-known trade-mark, "La Belle Chocolaterie," and their place of manufacture "Dorchester, Mass." Housekeepers are advised to examine their purchases and make sure that other goods have not been substituted.

An attractive little book of "Choice Recipes" will be mailed free to any housekeeper who sends her name and address to Walter Baker & Co., Ltd., 138 State Street, Boston, Mass.

Japs Live to Learn.
The foreigner traveling in Japan is soon made aware of the quality of curiosity. On every railroad platform he is surrounded by a crowd of people who, with their mouths as wide open as his eyes in their effort to see no detail of interest, regard him slowly from head to foot, and comment upon him among themselves the while. These people may have seen hundreds of foreigners—they may see them every day—but they are there to see him. They have never seen one before. I visited some Americans in Tokio who had lived in the same house with the same Japanese neighbors for about a year. Yet each time we went out to drive the people in the little Japanese house nearby would rush to their windows and stand there watching as eagerly as a small boy at the circus. This happened every day.

A Miracle Explained.
Bryant, Mo., May 12.—The sensational cure of Mrs. M. A. Goss, of this place, has sent a ripple of excitement all over Douglas County, and Dodd's Kidney Pills, the remedy in question, are receiving thereby the greatest advertisement any medicine has ever had in this State.

To satisfy the many inquiries which she finds it impossible to answer by letter, Mrs. Goss has sent the following statement of her case to the St. Louis Globe-Democrat:

"I did not think I could live a day and suffer, as I have lived and suffered for months with Sciatica and Rheumatism. I used barks and liniments of all kinds. Two physicians treated me, one of them for two months. Nothing helped me in the least. I never slept more than ten or fifteen minutes at a time. I was bedfast, and had to lie on one side all the time. I used to wish for death, to deliver me from such torture.

"A friend suggested Dodd's Kidney Pills, and after I had used them a week I began to improve, and in about four weeks I could sit up in bed. A few days later I walked a quarter of a mile and back. I now do all my own cooking and house work. The pain has entirely left me, and I am a well woman. I have taken altogether sixteen boxes of Dodd's Kidney Pills. Dodd's Kidney Pills saved my life.

"MRS. M. A. GOSS.
People come for miles to see Mrs. Goss, and hear her wonderful story. Dodd's Kidney Pills are working marvelous cures in Missouri.

Milk of the Buffalo.
The government of India has recently published an interesting note on the milk of cows and Indian buffaloes. This is based on the work of Dr. Leach, and states that the milk of the Indian cow corresponds very closely to that of the English one, but in the milk of the buffalo the proteins are in higher proportion and the lactose is in lower proportion than in cow's milk. Buffalo's milk usually contains much more fat also. The mineral matter is about the same.

Western Canada's December Weather.
Equal to that of May in Minnesota.

To the Editor—Thomas Regan and C. Collins, of Eden Valley, Minn., went out to Western Canada last December as delegates, to look over the grazing and grain lands that are being offered at such low prices and reasonable terms. This is what they say:

"We arrived in Calgary about the 20th of December, and although we had left winter in Minnesota and Manitoba, we were surprised to find beautiful warm weather at this point, quite equal to what we have in May in Minnesota. There was no snow nor trace of winter to be seen, and the climate was really splendid. Horses, cattle and sheep were running out, in prime condition, with plenty of feed on the prairie, and really better than that of ours stabled in the South. We are impressed with this country as one of the finest mixed farming countries we have ever seen. The immense tracts of fertile lands well sheltered and abundantly watered leave nothing to be desired.

Leaving Alberta, we returned east and visited the Yorkton district in Assiniboia. We drove out about ten miles at this point, and were highly pleased with the splendid samples of grain we were able to see, wheat yielding twenty-five bushels, oats thirty bushels. Roots were also good specimens. From what we have seen, we have decided to throw in our lot with the Yorktoners—satisfied that this part of the country will furnish good opportunities for any one anxious to make the best of a really good country. Any agent of the Canadian government, whose advertisement appears elsewhere in the columns of your paper, will give you full particulars of the new districts being opened out this year in Assiniboia and Saskatchewan. Yours truly, OLD READER.

SACRED VASE LOST.

Work of Art Believed by the Chinese to Possess Supernatural Powers.

Tien Tsin yielded lost galle during the sacking of the native city last summer, probably greater in actual value than the plunder of Peking. But to this day there are many men who are still watching for trace of a famous vase. It is known as the "Vase of Tien Tsin" or "The Sacred Vase." The latter name was given it by the foreigners from the fact that the natives regarded it with wonderful care and preserved about it a secrecy even in excess of the natural reverence of the Chinaman. So thoroughly has this piece of porcelain been hidden, so completely has its tracks been covered that no white man has had sight of it or been able to grasp a clue to its whereabouts since late in the autumn of last year.

That the vase of Tien Tsin exists, or did exist in October of last year, is an indisputable fact. That it was once in possession of an American for a few moments is also true and the story of how he lost this valuable piece of loot shows the remarkable cunning of the Oriental.

Description of the Vase.

From the fleeting glimpse obtained of the treasure it is described as about two feet tall and very graceful in design, the material being the famous white porcelain. The vase was decorated with several cross bands of beautiful cloisonné, of the old Peking workmanship. To those familiar with Oriental art work and porcelain its value will readily appear. Many buyers of bric-a-brac who arrived in Tien Tsin shortly after the fighting in search of bargains exhausted every effort that money and ingenuity could suggest in a vain search for this work of art.

The vase of Tien Tsin was first heard of by the foreign police of the native city. This was a force composed of small contingents from all the powers represented in the allies, under direction of the provisional government of the city. Several cross bands of beautiful cloisonné, of the old Peking workmanship. To those familiar with Oriental art work and porcelain its value will readily appear. Many buyers of bric-a-brac who arrived in Tien Tsin shortly after the fighting in search of bargains exhausted every effort that money and ingenuity could suggest in a vain search for this work of art.

Seen by Chance.

In the densely-populated city of Tien Tsin, with its teeming thousands in narrow streets and tortuous by ways, its blind alleys and maze-like courts of house within house, connecting buildings, the search for the vase, both on the part of the police and the buyers and their agents who had gotten wind of the matter was prosecuted most thoroughly for several months, until even the faint clues which for a time had kept hope of its discovery alive disappeared and absolutely all trace of it was lost.

Unusual Actions.

It was noticed when the military police arrived that there was a large crowd of Chinese present. They gathered rapidly, like a crowd at a city square, and the fact attracted attention from the soldiers. Ordinarily when the foreign devils appeared there would be a quick scattering of the native longers, and they would disappear like rabbits in a warren at the approach of a uniform. But around the little group of houses where the soldiers were searching, always prosecuted for weapons and other contraband—the Chinese assembled, talking excitedly in low tones and evidently much perturbed. A guard was placed in front of the house, and the rest of the squad, headed by an officer, entered the building.

The natives, overcoming their repugnance and fear of the police, crowded into the courtyard and even into the very rooms where the police were at work. With the thoroughness and system born of practice the men went through the premises, handing out and piling out all articles which from their apparent value seemed out of place in this poor quarter, and which, under the circumstances, were evidently plunder secured in the terror-filled days of the siege when the lawless had a free hand.

Vase Had Disappeared.

Among the articles was a vase—the

vase, as it was afterward proven. It was scanned hastily and passed over to the rapidly-accumulating pile of loot. No one took more than a cursory glance at it, and it was placed on the floor near the door. In a few minutes the swarm of natives began to melt quickly away, and when the search of the premises was finished not a Chinaman was in sight. Neither was the vase. With that cunning and dexterity which marks the Oriental above all men, the vase of Tien Tsin had been lifted from under the very nose of the guard and had disappeared with the crowd. It was not until the adventure was described later and the officer casually remarked that "a mighty pretty piece of china had been taken" that its identity was disclosed. An Englishman who knew of the vase of Tien Tsin asked him to describe the missing article, and when he had concluded the Englishman drew a long breath and explained the value of the prize.

At rare intervals vague word of the wonderful piece of porcelain has come to light, but never again, it is believed, has a white man seen the rich red of its graceful shape shining under the glancing beams of God's sun.—Washington Post.

SEA SCARE AND PRAYER.

Remarks by Dr. Parkhurst on the Prayerless Overland Route.

"Devotion goes out of our hearts just as fast as comfort comes into our bodies. We thank God when we are hungry and forget him when we have enough. That is why the 'blessing' comes at the beginning of the dinner rather than at the end. This having body and soul did up in one bundle is a precarious experiment. To be one-half dirt and the other half divinity is awkward. Great devotion is likely to be tied to a body that is skinny, and full development of body is the easy accompaniment of a soul that is emancipated.

"Pastors are often asked to put up prayers for those in distress, disappointment, or unhappiness. A man who is making money needs more praying for than the man who is losing it. The man who has abundant health is more in danger than the one who is inviolable. Sense of sufficiency is a foe to saintliness and rubs devotion clean out. We are, at any rate, not inclined to trust in God and to lean upon him so long as the appearance is that only our own resources and ingenuity are requisite.

"It is approximately the same distance from New York to California as from New York to Liverpool. Now, first and last, a good many members of this congregation have asked that prayer might be made for themselves and their friends when about to sail for Europe. But, so far as I remember, not a soul ever solicited from me such prayerful remembrance when about to sail for San Francisco by the overland route, of course. Land is more solid than water and the thought is that it takes less God to see a train safely across the continent than to see a boat safely across the Atlantic. At the request of friends I have prayed a good many people across from Sandy Hook to Queensboro, but in only two instances. I think, however, I never been asked to return thanks to God for their having got safely over. People are devout when they are a little frightened of the sea, but recover themselves and turn atheistic when they strike terra firma. There are no such lively prayer meetings as those that have been held on the decks of vessels that were foundering or afire.

The Transmission of Electric Power.

It is some credit to Indian enterprise that it should come next to American in the utilization of a great natural water power for generating electric force. The project for harnessing the falls of the Cayuga river in the New York State is already well advanced and the installation will be completed in a year and a half. It will convey the electric energy of 4000 horse-power ninety-three miles to the Kolar gold fields, where it will supply all the motive power required for the great mines there, to the advantage both of the mines and of the state which constructs the work. In length of its transmission line this scheme far surpasses the Niagara one, which supplies Buffalo only twenty-seven miles away. Probably other industries besides gold mining will grow up when the Cayuga gets to work. And better still, this may be only the first of such schemes by which India will find in her great water-power compensation for the deficiency of her coal supplies.—London Saturday Review.

ADJUSTING MATTERS.

The urchin yelled: "Oh, father, de. Not come no so confounded narty! The parent said: 'I'm giving you a striking proof of my regard.'"

"Then do not ask me to refrain. But stand it, since you may not sit. I find you have been raising Cain— I must proceed to lower it."

A UNITED STATES MARSHAL

Thanks Peruna for His Rapid Recovery From Catarrh.

EX-UNITED STATES MARSHAL MATTHEWS, OF MISSISSIPPI.

Hon. S. S. Matthews, ex-United States Marshal of Mississippi, in a recent letter to The Peruna Medicine Company of Columbus, Ohio, written from Hazelhurst, Miss., says:

"I am happy to say that I am cured of catarrh and need no more attention from you. It is a great satisfaction that I am able to write you that Peruna has in my case done all that you claim, and that I will need no more medicine."

Protection of Sea Birds.
The American Ornithologists' union succeeded last year in protecting, by means of carefully-selected wardens, all of the known breeding grounds of the sea birds along the Northern Atlantic coast from Virginia to Maine. The union now appeals to the public for funds to enable it to extend its protection to the birds along the Southern Atlantic and Gulf coasts.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

POOR LITTLE JOHNNY! AND HIS "TUMMY!"

Small boys, and many times large ones, and occasionally girls, too, big and little, suffer terribly from convulsive pains or "cramps" in the bowels and stomach—pain so violent that it "doubles up" the ones attacked, and makes it impossible for them to stand up.

Some people call it colic, but most honest, plain-spoken people call it "belly-ache" and very properly, for the seat of the trouble is in the bowels, and caused by the violent efforts of the bowels to rid themselves of something which doesn't belong there. The small boy usually gets it from over-eating or from eating forbidden fruit, and suffers mostly in the summer time.

It's spring now, and "in times of peace, prepare for war." Let the boys and girls and the big folks, too, for that matter, clean out the clogged channels filled with winter bile and putrid undigested food, strengthen the 30-feet of bowel canal, liver up the liver, and "summer belly-aches" will have no terrors, because they won't suffer for war.

Let the boys and girls and the big folks, too, for that matter, clean out the clogged channels filled with winter bile and putrid undigested food, strengthen the 30-feet of bowel canal, liver up the liver, and "summer belly-aches" will have no terrors, because they won't suffer for war.

Address: STELLING REMEDY CO., NEW YORK or CHICAGO.

The great multitude take this remedy without any other advice than the directions to be found upon the bottle and in the pamphlets. There are those who prefer, however, to correspond with Dr. Hartman during their sickness. To all such he will make prompt and careful answer without charge.

Hon. J. F. Crocker, of Buffalo, N. Y., who was for years Superintendent of Schools at Buffalo, in a letter dated October 16, writes:

"I have been a sufferer from catarrh six or seven years, and after trying many remedies I was induced by a friend to take Peruna. The results have been highly satisfactory. I take pleasure in recommending Peruna to any one suffering with catarrh, as my cure is complete."

Hon. J. F. Crocker, Supt. Buffalo, N. Y., Public Schools.

Hon. B. B. Dorrison, Congressman from West Virginia, in a letter from Washington, D. C., to The Peruna Medicine Co., says the following of their catarrh remedy, Peruna:

"I join with my colleagues in the House of Representatives in recommending your excellent remedy, Peruna, as a good tonic and also an effective cure for catarrh."

Mrs. Mary C. Ventress writes from Paradise, Tex., the following: "I think I can say that your good advice and medicine has cured me of chronic catarrh. I have had no pains in my head since I have taken Peruna. I have been in bad health ever since '99, and have taken a good many medicines which were only of temporary relief. Peruna is the catarrh cure. The Peruna stopped my catarrh of the head so that it did not become chronic, and I am very thankful for Dr. Hartman's advice and medicine."

Peruna is a specific for all catarrhal diseases. It acts quickly and beneficially upon the inflamed mucous membrane, thus removing the cause of catarrh.

Catarrh is catarrh wherever located. Catarrh is essentially the same everywhere. The remedy that will cure catarrh in one situation will cure it in all situations.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Uses of Sawdust.
Sawdust is used in Scotland to some extent in making floorcloth and linoleum, certain kinds of heavy stamps or embossed material to be used instead of wallpaper, coarse wrapping paper and millboard and certain coal substitutes for domestic use. It is also employed mixed with melted resin in making fire-bricks.

WIRELESS TELEGRAPHY.
Attempts are being made by the Marconi Wireless Telephone Company of London to inaugurate a wireless telegraph service to Australia. Although the total distance is considerably in excess of that from England to this country, it can be more easily negotiated owing to the facilities offered at various points en route for transmitting stations. Arrangements are being made to erect stations at Frawley Point, the Lizard, Ushant, Cape Finisterre, Gibraltar, Malta, Algiers, Sardinia, Sicily, Cape Malin, in Greece, Alexandria, Aden, Socatra, Colombo, Sumatra, the Cocos Islands, Perth, Albany, Adelaide and Melbourne.

IF COFFEE POISONS YOU,
ruins your digestion, makes you nervous and sallow complexioned, keeps you awake nights and acts against your system generally, try Grain-O, the new food drink. It is made of pure selected grain and is healthful, nourishing and appetizing. It has none of the bad effects of coffee, yet it is just as pleasant to the taste, and when properly prepared can't be told from the finest coffee. Costs about 1/4 as much. It is a healthful table drink for the children and adults. Ask your grocer for Grain-O, 15c and 25c.

The street committee presented the following resolution.

COSTS OF SEWERS.

RESOLVED, That it is the sense of this council, and the street committee are hereby directed to so provide and order, that for all sewers hereafter constructed there shall be assessed against all lots, parts of lots and parcels of land fronting or abutting on the work so done on each side of the same for its whole length an even rate of 25 cents per linear foot on each side of the street of the whole frontage of each lot, or part of lot or lots, or parcel of land fronting or abutting on each side of said sewer, except corner lots, which shall be assessed as provided in Section 925-216 R. S.

The above resolution was unanimously adopted.

The following proposition was presented by the Electric & Water Co. To the Mayor and Common Council of the City of Grand Rapids:

We hereby propose to connect our electric lines with the electric pumping station to be installed by the city, and take, charge of said station and maintain and operate the same, and take care of all machinery in said station and keep the same in repair, provided such repairs do not exceed \$200.00 per year; and to pump all water required by said city for a period of ten years for the following compensation:

For the first 2,500,000 gallons or less pumped per month, \$100.00.

For all water pumped per month in excess of 2,500,000 gallons and less than 5,000,000 gallons, 3 cents per 1000 gallons.

For all water pumped per month in excess of 5,000,000 gallons and less than 7,500,000 gallons, 2 cents per 1000 gallons.

For all water pumped per month in excess of 7,500,000 gallons, 2 cents per 1000 gallons.

Provided that at the end of five years a readjustment of these rates shall be made.

ELECTRIC & WATER CO.
Alderman Hill moved that the proposition be accepted. Alderman Wood seconded the motion. The motion was carried by the following vote, the clerk calling the roll.

Cost of running pumping station from May 1, 1900 to May 1, 1901, \$1701.

92, leaving balance in favor of waterworks of \$787.45. During the year there has been pumped 30,650,136 gallons of water at an average cost of about 5 1/2 cents per 1000 gallons, while last year the cost per 1000 gallons was 7 cents. Since last report the rate with the Chicago, Milwaukee & St. Paul railway has been raised from \$200 to \$300 and the N. & S. E. from \$50 to \$75. The Grand Rapids Lumber Co is the only patron using a meter and have meter rate of 5c per 100 cubic feet and have paid for rental since Nov. 1, 1899, \$371.78.

I would recommend that the city install on the meter system because it is the only correct system and especially so in view of the fact that it is a reliable, railway tanks, hotels and every other place where water is used. One other item I think worthy of your consideration and one that would obviate much waste of water, and that is, the inspection of all service at least twice a year because there are a great many leaky faucets and water closets and there being no inspection, patrons become careless and neglect to remedy the useless waste of water.

Respectfully submitted this 30th day of April 1901.

T. J. COOPER,

Supt.

A communication from E. P. Arpin explaining his absence was read by the clerk, and on motion referred with enclosure to the District Attorney.

A petition from the town board of the town of Rudolph was presented and read as follows:

To the Board of Supervisors of Wood County, Wisconsin, Gentlemen: The undersigned members of the town board of supervisors of the town of Rudolph, in Wood County, Wisconsin, respectfully represent and petition your honorable body as follows: That the said town of Rudolph at the annual town meeting held in and for said town on the 2nd day of April, A. D. 1901, voted to construct a bridge in said town across Mosquito Creek where said creek crosses the highway running east and west between the south and west quarter of the northeast quarter and the north west quarter of the south east quarter of section number nineteen (19) in township number twenty-three (23) north of range number six (6) east.

That it is estimated that said bridge will cost approximately \$400. That said town has provided for the payment of one half of the cost of said construction of said bridge having appropriated the sum of two hundred dollars for that purpose. That the cost of said bridge will exceed one fourth of one per centum of all the taxable property in said town according to the last equalized valuation.

WHEREFORE your petitioners pray that the county board of said Wood County appropriate the other half of such cost in accordance with the provisions of section 1319 of the Wisconsin statutes of 1898, and appoint commissioners pursuant to the provisions of said section.

Ed. Provost, Chairman,
MOSE SHARKEY,
ALBERT HERMAN,
Supervisors Town of Rudolph.

On motion the above petition was referred to the committee on roads and bridges.

Supervisor John A. Ommodt of the town of Cary, presented and read the following petition:

We the supervisors of the town of Cary do hereby petition the county board of Wood County to appropriate one half the amount necessary to construct and build a bridge across Lindsey Creek on town line road between the towns of Cary and Rock located on N. W. 1/4 of N. W. 1/4 of section 5, in the town of Cary and S. W. 1/4 of S. W. 1/4 of section 32 in the town of Rock. As the town of Cary voted at the last town meeting \$200 or as much of it as there would be necessary for said bridge.

JOHN OMMODT,
ORA ZENTHER,
BERT WILLIAMS,
Supervisors of Town of Cary.

On motion the above petition was referred to the committee on roads and bridges.

The clerk read the following petition to the honorable board of supervisors, of the county of Wood, Wisconsin.

The petition of the undersigned represent that they are the town board of supervisors of the town of Lincoln in the county of Wood in the state of Wisconsin. That the said town of Lincoln at the annual town meeting held in and for the said town on the 2nd of April, 1901, voted to construct in said town 3 bridges as follows: One on the section line between section 10 and 15, across the Yellow River, which bridge is estimated to cost about \$1200; which is more than 1/2 of one per cent of the last equalized valuation of said town, also another bridge on section line between sections 29 and 30 across the west branch of Yellow River, which bridge is estimated to cost about \$800, which is more than 1/2 of one per cent of the last equalized valuation of said town, as fixed by the county board, also another bridge on the section line between section 19 and county line between section 19 and township 25 range 2 east in Wood County and section 21 in township 25 range 2 east in Clark County across the west branch of Yellow River, which bridge is estimated to cost about \$650. This last bridge is to replace an old wooden bridge, which is considered unsafe and dangerous for travel.

That the said town of Lincoln has voted to raise the sum of \$1100 for the building of said bridges, which is more than one half of the estimated cost of the first 2 named bridges, and that providing the county of Wood will join in with Clark county to pay 1/2 of the cost of the last named bridge the town board of Lincoln will endeavor to raise enough more to make up its share of the cost of said bridge.

We therefore pray that the county board of Wood County will appropriate one half of the cost of building above named bridges and will appoint commissioners as provided in section 1319 of the Revised statutes of the state of Wisconsin to co-operate with said town board of town of Lincoln.

Dated town of Lincoln, Wood County Wis., May 6th, 1901.

P. N. CHRISTENSEN,
MATIAS JONAS,
Supervisors of town of Lincoln.

Old Soldier's Experience.

M. M. Auslin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick along time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health. They always do. Try them. Only 25 cents at Johnson & Hill Co. and John E. Daly. Free trial box.

To Burn Lumber Camps.

There is a probability that all the lumber camps in the northern part of the state will be burned down this summer, by order of the state board of health. During the past two winters the many camps have been the breeding places of smallpox, and it is feared that the disease will develop in more deadly form next winter unless heroic measures are taken for its suppression. This project has been in the mind of the state board for some time, and has been broached before. Dr. Wingate of the state board of health has expressed himself as fearful of a deadly epidemic next winter unless the disease is suppressed in the meantime. The present scourge he pronounced the mildest in the history of medicine. Nevertheless, he said that it was true smallpox, and liable to develop into a virulent plague if it was not properly handled. The state board will decide the question of burning the camps soon.

It Saved His Leg.

If, for instance, an engineer has orders to hold for further orders at a station 32 miles down the line he will set the device at 31 and at that point the automatic arrangement will blow the whistle, and at 32 miles it will stop the train without the help of the engineer.

The Woodmen of the World held a very pleasant dancing party at the opera house Tuesday evening. This is the first ball that order has held since its organization in this city and the members were consequently pleased that their party was both a financial and social success. Those who attended spoke very highly of the music which was furnished by the Monarch orchestra.

Into each life some ruins must fall. Wise people don't sit down and bawl; Only fools suicide or take to flight. Smart people take Rocky Mountain Tea at night. 35c. Johnson & Hill Co.

A telephone company has been organized in Chippewa county to be known as the Chippewa Valley Telephone company. The John Arpin Lumber company will control about 750 shares of the stock and the headquarters of the new company will be at Bruce. The line will be 60 miles in length and have about 12 stations. The company will have connections with the Baring Co. Telephone company.

—Mrs. J. no matter what causes facial eruptions, absolute cleanliness inside and out is the only way to cure them. Rocky Mountain Tea taken this month will drive them away. 35c at Johnson & Hill Co.

Mrs. W. A. Shumway of Pittsville met with rather a disconcerting accident while in the city on Saturday, but luckily escaped without injury. She in company with her nine months old baby, was sitting in a buggy in front of Natwick's furniture store when a team behind started forward and the wheels of the two vehicles caught together and the rig in which Mrs. Shumway was seated was overturned throwing the lady and baby to the ground. It was found on investigation, however, that neither had sustained any serious injury.

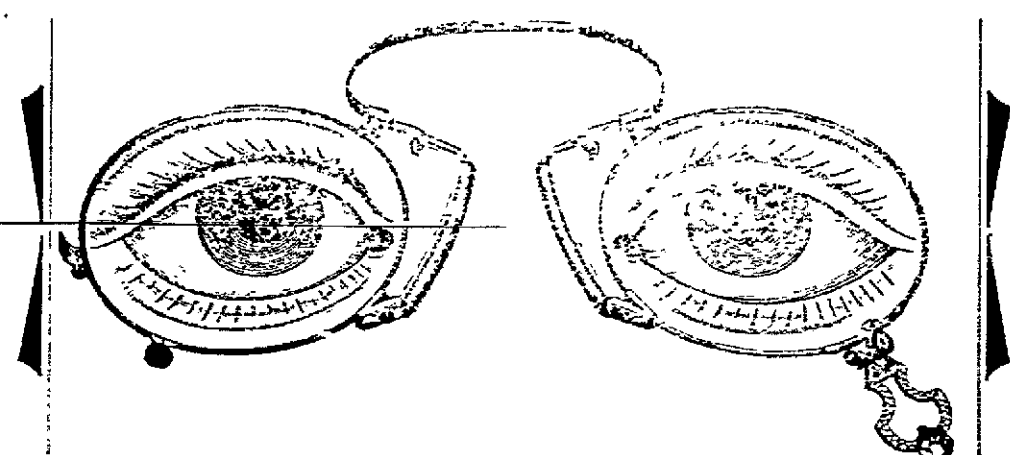

—Fresh lime, Portland, Louisville and Milwaukee Cement. Michigan Stucco always on hand. CENTRALIA HDW. CO.

A tramp who was attempting to steal a ride on a passenger came near meeting death one evening this week. He in company with another hobo had decided to take a ride on the south bound passenger that evening and they stood alongside the track until the train started when they stepped forward and tried to get underneath the cars onto the brake beam. One of them succeeded but the other did not get seated securely and was dragging along the track, holding onto the rods by his hands when his predicament was noticed and the train was stopped. He crawled from his place a trifle the worse for wear but not seriously hurt, and moved on his way afoot.

—Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested or partly digested food and then of bile. Chamberlain's stomach and liver tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by Johnson & Hill Co.

The Free Press, Milwaukee's new morning newspaper, about which there has been a good deal of interest throughout the state, will make its first appearance, it is announced, early in June. The Free Press will be located at 136 Grand Avenue, opposite the Plankinton House, where the new company has already taken possession of two large stores. H. P. Myrick, who will be editor of the new paper, says that from assurances already received, not only from Milwaukee, but from all parts of the state, the Free Press will start out with a very large subscription list. The Free Press will aim to cover the state news field fully and it has arranged for a complete general news service.

CRANMOOR.

Friday, Saturday and Sunday nights were trying ones for cranberry men. The balm, growing weather of two weeks previous suddenly changed late in the day Friday, the wind coming cold and strong from the north and northwest, coupled with a falling temperature indicated severe frost. Nearly all the growers were night watches, flooding and otherwise caring for their marshes as the mercury showed the need. Fortunately all had fairly well filled reservoirs and could protect the vines which are well advanced for this time of the year. It is a little early to note if any damage was done, though it is possible some buds were touched Friday night before marshes were flooded.

School at the station closed last Saturday. A picnic dinner was followed by an entertaining program rendered by the younger members of the school. The formal presentation of diplomas to the graduates, Charles and Edward Kruger, and a kindly address to the pupils was made by the teacher, Miss Anna Granger.

Mrs. Daly of Tomah and Mrs. Sleighton of St. Paul, Minn., are guests at the Ralph Smith home. Mrs. Daly is a sister and Mrs. Sleighton an old time friend of Mr. Smith.

Andrew Bissig came down from City Point Saturday, remaining over Sunday, returning to his marsh near City Point Monday, where he will probably spend the next two weeks.

Supervisor Daniel Rezin met with the other members of the town board Thursday and Friday at Port Edwards to attend to official business.

The young people of the Fitch and Whittlesley families exchanged visits during Miss Harrier's stay at home between school days.

A sister of C. E. Lester's from New York state is here and may spend some time visiting her brother's family.

A. E. Bennett, wife and children were Grand Rapids guests Saturday and Sunday.

RUDOLPH.

Patrick Case narrowly escaped losing his home by fire last Wednesday evening. Mrs. Provost, who chanced to be passing, saw the fire and alarmed the family. The fire gentleman made a gallant fight for his own but the fire was rapidly gaining on him and there is little probability that he could have saved anything but for the arrival of Joe Provost on the scene, who quickly notified neighbors. Willing hands soon had the flames under control and, although somewhat unheeded, the worthy old couple sustained no further loss than a partly burned roof and a drained well.

O. J. Len, county superintendent of schools, was calling at the schools of this town during the week.

The sociable at C. H. Compton's was quite largely attended and a pleasant evening was had by all.

Emory Provost went on a recruiting visit to Oshkosh last Sunday. Will remain indefinitely.

Miss Julia Crotteau came home Monday after a few weeks' visit at Lyau.

Miss Esther Compton is a visitor in your city this week.

BRON.

The mill was shut down Sunday and a crew of men put to work taking the driftwood from in front of the flames. This rubbish has been in there since the ice went out and held back a good head of water.

A number of people from this burg attended the dance given by the W. O. W. at the opera house Tuesday evening and all report a good time.

Talk about your swells, well we can boast of at least one. He has a new chainless wheel and now the girls think he is all right.

Miss Miller is preparing her scholars for the last day recitations to be held at the school house Friday, May 25.

Mr. and Mrs. John Alpine moved to Grand Rapids Monday and he will ride to and from work on his wheel.

Mrs. Eberhardt visited with Mrs. Kempfert and Mrs. Stearns Thursday. A few of the children have been sick with the mumps lately.

VESPER.

Mrs. Clarence Hurd and little daughters, Florence and Edna, departed for their home in Chicago on Saturday, after spending several weeks with her parents, Mr. and Mrs. C. Otto.

The Timm Bros. and their crew of twenty men moved their tent to Arpin Wednesday, having finished their contract at Vesper on the C. & N. W. right of way.

Miss Mabel McCamley visited over Sunday with her aunt, Mrs. Jos. White. She was accompanied by Miss Dugan of Grand Rapids.

Leo Cerewski and wife and Mrs. Frank Osterander of Appleton drove out from town Sunday and visited among old time friends.

Misses Rose and Anna O'Brien of west Grand Rapids visited over Sunday with their sister, Mrs. P. J. Flanagan.

John Hassler has been making improvements about his place by filling in and setting out trees.

Neils Johnson and John Bell drove through our town on Tuesday.

C. Otto transacted business in Grand Rapids on Wednesday.

C. Anderson of Sherry drove to Vesper on Wednesday.

The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This is wholly unnecessary too, for a cure may be effected at a very small cost. G. W. Westcott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's pain balm and am pleased to say that it has cured me." For sale by Johnson & Hill Co.

—For fine dental work, go to Dr. D. A. Telfer, office over Wood County National Bank, Grand Rapids. Will be out of town every Monday and Tuesday.

GENERAL COUNTY.

A cow belonging to John Paine of Marshfield was killed by the state veterinary last week on account of being afflicted with tuberculosis. The state pays two-thirds the damage in a case of this kind, while the owner of the animal stands the other third. The state veterinary also visited Arpin where it was reported that a team belonging to John Sturm was suffering from glanders.

A petition is being prepared which will be presented to the Northwestern railroad officials asking them to build their depot at or near Martin Pyl's place, situated about a half mile south of Arpin instead of at Arpin. They claim that this will be a more central point for all farmers thereabouts than at Arpin as there are cross roads there and there will also be a cheese factory and store.

A party of two hunters have been engaged in hunting wolves in the town of Hansen during the past two weeks and so far have met with considerable success. During last week they succeeded in killing six wolves and on Wednesday they killed eight of the animals. They were hunting with dogs.

Jacob Bord has secured the contract to erect a brick barn for David Taylor who resides about a mile and a half north of Grand Rapids. Jake has been suffering from an attack of pink eye for some time past.

C. E. Fero and H. Waddell of Pittsville last week commenced work on the new school house which is to be erected in the town of Seneca this summer.

Edwin Dexter of Marshfield was granted a pension of \$30 last week.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Trial bottles free. Guaranteed bottles 50c and \$1 at Johnson & Hill Co. and John E. Daly's drug store.

SHERRY.

John Oaks, who has been engaged in clearing land on John Pospisiel's place for E. Leidholdt, met with an accident on Friday which resulted in the breaking of his right leg below the knee. He was dragging out a stump with a team when it caught and tipped on to his leg, breaking both bones. Dr. Ridgman was summoned from Grand Rapids to reduce the fracture.

E. Leidholdt of the town of Carson, Portage county, has been engaged by John Pospisiel to take charge of the latter's farm. Mr. Pospisiel has a farm of 540 acres and men are engaged this spring in clearing another eighty acres. Mr. Leidholdt has leased his farm in the town of Carson to Peter Casper.

Shudders at His Past.

"I recall now with horror," says mail carrier Burnett Mann, of Levanua, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired worn out, about ready to give up when I began to use Electric Bitters. But six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate stomach, liver, kidneys and bowels. Perfect satisfaction guaranteed by Johnson & Hill Co. and John E. Daly. Only 50 cents. Free trial bottles.

Marriage Licenses.

The following marriage licenses were granted during the past week:

Clarence Dakin of Plover to Lottie Newman of Grand Rapids.

Frank H. Hasselberger to Amanda Koch both of town of Marshfield.

Fred Fandek to Carrie Lepsh, both of New Vesper.

Godfrey Schiller to Mary Kollich, town of Wood.

John Maxwell to Blanch Prevenow, town of Richfield.

Theodore Wissink to Edith Abeldt, Marshfield.

No Loss of Time.

I have sold Chamberlain's colic, cholera and diarrhoea remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are as work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by Johnson & Hill Co.

When Governor LaFollette vetoed the primary election law he seems to have caused the displeasure of a large number of people and many of them do not seem to know just what they are kicking about. We have not seen a copy of the bill since it received its numerous amendments, but if it was so materially changed as the friends of the original measure claim, he is not to be blamed, but rather commended.

Business Opportunity.

Saloon property and seven acres of land in town of Sigel for sale. Also 100 acres of farming land, 60 acres under cultivation. This property will be sold altogether or separately, at the option of the buyer. For particulars call on or address the owner, Joseph Rick, Sigel, Postoffice address Centralia, Wis.

Additional Local.

Subject for discourse at the M. E. church Sunday morning will be "Family Religion." In the evening "A Likeness of the Wicked."

A 5 cent dish will convince you that 20th century ice cream is the best.

Mrs. Frank Leitner of Marshfield has been adjudged insane and County Judge Gaynor committed her to the Northern Hospital near Oshkosh on Monday for treatment.

Thomas Boyles broke his left arm on Thursday while practicing athletic sports with the boys. He was doing the pole vault when his stick broke and he fell to the ground.

—Order some ice cream made at the 20th century place by phone No. 155. Cheapest and best. 35 cents a quart, \$1 per gallon.

At the meeting of the county board the name of the town of New Vesper was changed to Hansen. This makes the town and postoffice name the same and is not so confusing as the old way.

The Wood County Telephone company has ordered 3,000 feet of cable which will be used to replace the wires on some of the poles along the main thoroughfares which have become overloaded.

The high school track team will complete for honors at the Appleton scholastic meet on Saturday. If the boys do as well as they did at Wausau we may expect them to occupy a high place in high school athletics.

The school commissioners met on Thursday evening for the purpose of engaging teachers for the ensuing year, but only one application was acted upon. Many of the teachers have not responded to invitations extended to them so that no action can be taken in the matter.

—Two colts for sale, one coming two years, one coming three years. Inquire at John Pospisiel's place, town of Sherry.

Deputy Sheriff Fred Warzinski of Marshfield was arrested on Saturday, charged with practicing as a veterinarian without being properly qualified. The arrest was caused by State Veterinarian W. S. Powell. He pleaded not guilty and the case was adjourned to May 20.

On Sunday all the train crew on the Southeastern had to take a physical examination before Wisconsin Central physicians at Stevens Point. Those examined were Conductor John Anderson, Engineer P. J. Lyons, Fireman P. F. Hayden and John Russell, brakemen Hays Anderson, Lawrence Bord and Henry Kempke.

Two business men were conversing on the street corner the other day when a lad of about fifteen passed by and one of the men remarked: "That's a bright boy; I am watching him. If he gets through another year or so without contracting any of the bad habits so prevalent among sixteen-year-old boys in town, I know where he will get the offer of a mighty good position." The boys should remember that they are being watched by business men. The boy who is studious, industrious, prompt, energetic and reliable is preparing the way for a good proposition from somebody. There are not enough such young men to supply the constant demand.—Ex.

The silver plating compound manufactured by Mrs. Boyer can be procured at Geo. W. Davis' or by calling up the laundry.

What is said to be one of the best bills which has been passed by the legislature is a measure which has so far attracted very little attention and it provides that any graduate of a district school can attend the high school in the city nearest the town in which he resides and that the town must bear the expense of his tuition. This is a bill which has the strong support of the educational interests of the state and it is declared will prove a measure which will do a great deal to aid the residents of the country districts in obtaining a higher education. It is also expected that the fees for tuition which the village schools will receive will amount to an inconsiderable sum and that, all around, a good many benefits will accrue from the plan.—Manitowoc Times-Press.

—For Pan American exposition at Buffalo, N. Y., the Chicago, Milwaukee & St. Paul Railway Company will sell reduced round trip rates at reduced rates beginning May 1st. For particulars inquire at the depot or ring 83.

J. Bascom Robins, the young traveling man who shot and killed W. W. Fencion, a merchant at Rhinelander, last August, died of pneumonia in Chicago Tuesday. Robins was on his way to Rhinelander to stand trial on the charge of murder when he was taken ill. The shooting caused a great sensation in Rhinelander at the time it occurred. Robins entered the store of Fencion and started a wild flirtation with a young woman clerk, finally asking her out to supper. Fencion saw them talking and when the girl told him that Robins had tried to "make a date" struck him in the face. Later Fencion sought out Robins at the latter's hotel and advanced on him in a threatening manner when Robins pulled a revolver and shot killing Fencion almost instantly. Local sympathy was largely with Robins.

The joint committee of the legislature on Tuesday afternoon agreed on the congressional apportionment and the same has been adopted by both the assembly and senate. This new apportionment makes considerable change in what has heretofore been the ninth congressional district but will hereafter be the Tenth congressional district. The new district will be composed of Ashland, Iron, Vilas, Forest, Florence, Price, Oneida, Taylor, Lincoln, Langlade, Marathon, Shawano, and Wood counties. The only new county added to the old ninth district is that of Wood, while Clark, Marinette and Oconto have been dropped, the first one being in the seventh district and the last two in the ninth district. It will leave the republican majority in this district much smaller than it was under the old apportionment. Of course it was the aim of the legislature to make eleven districts that would be solidly republican, but the democrats will have a good fighting chance in at least two of them.

Don't be a drag on the community. Either stand up for your town or go somewhere that suits you better. If the glorious Wisconsin weather don't suit you, go where it is hotter. If the soil don't suit you, don't vegetate in it. If the whole community is going to the demitition bow-wows in a hand cart you had better get out before the linchpin breaks and turns you head first, into the bottomless pit. If it is dyspepsia or liver complaint that makes a pessimist of you, go to the doctor and tell him to charge the bill to the public welfare. We are in the march of progress. Our city and county are going forward and we have neither time to go around clouds nor kick them out of the way, so if you wake up some morning and see that the procession has passed you will know that you have been run over.

Stevens Point Gazette: Louis J. Ute, A. P. Jensen, C. H. Wollen-schlaeger, John Kalka, Aug. Samson, and Frank Botnic are a half dozen Stevens Point masons who are at Grand Rapids engaged in erecting a handsome new brick residence for T. E. Nash and which will cost about \$40,000. The building will be 60x70 feet, three stories and modern throughout. Mr. Nash will also have one of the finest stables in Central Wisconsin, it being 30x70 feet in size, two stories with basement, the second floor to be fitted up with living rooms for coachman and other employees. In circuit court at Grand Rapids, Monday, N. Eiden-Mitschen was appointed as receiver of the Pavelski farm in the town of Sharon. The receivership is brought about on account of a so-called bread and butter case, in which the plaintiff recently received a judgment of \$2,000 against the defendant and the farm will be sold to pay the judgment.—W. H. Carey, Dr. Hougou, W. J. Conway and R. W. Morse of the excellent citizens of Grand Rapids, spent Friday night in the city, coming over to enjoy the hospitality of the local lodge of Elks.—C. F. Kellogg of Grand Rapids spent a couple of hours in the city this morning, while on his way to Plainfield.
